

Capture Halal Market Opportunities

Date and Venue

Feb. 6th

08:00 AM GMT

Online Webinar

45 Minutes

Target Audience:

- **Private Sector:**
Executives are responsible for company growth and business development.
- **Chamber & NGO:**
Marketing and Business Development.

To benefit from the Global Halal market, every company is having questions such as:

- How to be exposed to the Global Market and be ready for the next expansion step?
- Where to Search for producers, traders, and service providers from all over the world and where to be found by them?
- How to connect with other traders safely with minimal investment and less effort?
- How to Verify the Halal status and certificate of the next partner?

With all of these questions in mind and many more, ICBS has developed well-formulated, functional, measurable, commercial, and reliable initiatives that are exclusively designed to fill these gaps.

- **'IC Halal Platform'**. An online Platform that helps companies to search for the right partner and connects with them freely while feeling confident about verifying their Halal Status. Find and be found. All of this with free registration.
- **'IC Halal Expos and Pavilions'** will help all the Halal producers, Traders, and Service providers to get exposed to different regions with different customers throughout the whole year at the best position and with the best price.
